

Community Meetings

Twice each year the Core Team shall hold community meetings to solicit community input to the strategic planning process. At that time the Core Team shall develop a report to the Board reviewing the district's progress and shortcomings in implementing the strategic plan and recommending changes in direction or priority in the strategic plan that are necessary or beneficial.

No later than April 1st of each year the Board will meet with the Core Team and administration in public session to review the Core Team's report. The Board will review the progress of the plan, and consider amendments and changes in priorities in the plan and realignment of resources in terms of changed or changing circumstances. The Board will also review the Strategic Planning policy and structure and the board's relationship to that structure.

Proposed amendments to components of the strategic plan shall be considered by the Board following a public hearing on the merits of the proposed amendments.

Adoption: Oct 27, 1993
