OASIS K-8

Instructional Materials Screening Form

Board Policy No 2020 requires that all core instructional materials be approved by an Instructional Materials Committee. For the purposes of our Alternative Learning Experience (ALE) program, we are asking that the instructor or parent complete the following district form and submit it and the materials to be approved to the consulting teacher or administrator. The forms will be collected and reviewed by the OASIS K-8 Instructional Materials Committee monthly for approval .
Please fully **complete** each line and **check** whether the text "Meets Standard" or is "Not Acceptable" for each potential bias. Remember that even a math text can show bias through chosen examples, story problems, or pictures which exemplify one ethnicity, nationality, religion, etc., over another.

Title: _____

Publisher: _____

ISBN Number: _____
