

SUBSTANCE ABUSE PROGRAM

The board recognizes that the abuse of alcohol, and the use and abuse of controlled illegal, addictive, or harmful substances including anabolic steroids is a societal problem and may represent an impairment to the normal development, well-being and academic performance of students. To ensure the safety, health and well-being of all students, the board is committed to the development of a program which emphasizes drug and alcohol abuse prevention, intervention, aftercare support and necessary corrective actions. The program will address the legal, social and health consequences of drug and alcohol use, and provide information about effective techniques for resisting peer pressure to use illicit drugs or alcohol. The program will be age-appropriate and developmentally based for all students in all grades.

The board recognizes the effects to the school, home and community resulting from the abuse of alcohol and the use and abuse of controlled illegal, addictive or harmful substances including anabolic steroids. While the primary obligation to seek assistance rests with the student and his/her parent(s)/guardian(s), school staff shall work with the home and community to develop and implement a comprehensive prevention and intervention program. The board of directors shall seek the support, cooperation and coordination of public and private agencies through formation of an advisory committee, including representatives from the instructional staff, students, parents, state and local law enforcement staff and the county coordinator of alcohol and drug treatment or a representative of a treatment provider.

The superintendent is directed to develop and implement procedures to assess the scope of the problem of the use of addictive substances such as alcohol, drugs and nicotine, and to reduce and/or eliminate the problems associated with the use of alcohol, drugs and nicotine.

Parents and interested community members are encouraged to visit the school and/or classroom to observe classroom activities and review instructional materials. At the conclusion of each year, the district will evaluate the effectiveness of the program.

Substance Abuse Program

Actions taken by staff in dealing with student use of alcohol and the use and abuse of controlled illegal, addictive or harmful substances including anabolic steroids will have as their first concern the welfare of the student involved and the other students in the school. Although a helping relationship rather than an investigative and punitive approach will be emphasized, necessary and appropriate disciplinary action will be taken when laws or school regulations are violated. Law enforcement agencies will be called upon for investigative and consultative assistance where illegal drug or alcohol activity has occurred.

Prevention

The prevention program shall focus on classroom instruction, guidance services and the school climate.

Instruction

This dimension of the prevention program shall focus on:

- A. The effects of addictive substances such as alcohol, drugs and nicotine upon the body.
- B. Skill development related to self esteem, goal-setting, decision-making, conflict management, problem-solving, refusal and communication.

Guidance Services

Students or staff who need help with alcohol or other drug problems have help available in the form of individual or group counseling. Staff shall meet with students, individually or in small groups, to supplement prevention relating to the use of drugs. Staff will also assist parents to maximize the prevention efforts of the school. The district has the services of a certified dependency counselor (CDC). The CDC meets with students individually for aftercare support. Referrals are also made by the school counselor to additional counseling services. Groups available on the island include Alcoholics Anonymous and Alanon. Individual counseling is also available through San Juan Recovery Clinic and North Islands Counseling and Psychotherapy.

School Climate

A facilitative school environment can help students to achieve in a productive manner (academically, socially and emotionally). The school shall strive to be a place where:

- A. Students, staff, and parents respect themselves and others.
- B. Individuals can be trusted to do what they say they will do.
- C. High morale is evident.
- D. Each person feels that he/she has a voice in the decisions that affect him/her.
- E. All feel that they are continuing to learn and grow.
- F. All value diversity and accept it as an opportunity for growth and development.
- G. All possess a "sense of belonging".
- H. All feel that they can make a difference to someone else.

To this end, the school will encourage the formation of "natural helper", Core Team and any education and/or prevention promotions that increase the awareness of the effects of substance abuse. Student support groups shall assist students concerned about their own substance abuse, students living in families suffering from substance abuse, and students concerned about the substance abuse of someone else.

Intervention

The goal of the intervention program shall be to eliminate use of alcohol and the use and abuse of controlled, illegal, addictive or harmful substances including anabolic steroids abuse by students.

Ongoing in-service will be provided for faculty and staff. Important aspects of in-service training will include dimensions of the family illness and dynamics of the addiction process; enabling behaviors; intervention techniques; children in chemically dependent families; student experimentation, abuse and dependency; parental involvement and community resources; prevention issues and strategies; treatment and aftercare support; and implementation of the program into the classroom/building.

Corrective Action

If a student appears at school or at a school-sponsored function demonstrating behavior which indicates that he/she may be under the influence of a addictive substances and/or admits to an administrator that he/she is under the influence of a addictive substances, the school will take the following action:

- A. The parents will be notified to arrange for appropriate treatment.
- B. If the student's illegal use of addictive substances is confirmed, the school administration may request the assistance of a law enforcement official in investigating the source of the addictive substance.
- C. Appropriate school disciplinary action will be taken. **Sanctions for violations will be imposed up to and including expulsion and referral for prosecution.**

If school authorities find a student in possession of a **controlled substance at school, the controlled substance** will be confiscated and turned over to law enforcement officials. The name(s) of the student(s) in possession will be provided in order to aid officials in their investigation. Appropriate school disciplinary action, **according to the student handbook**, will be taken by a school administrator regardless of law enforcement action.

If a school administrator receives information concerning sales and use of addictive substances outside of school, the information will be reported to law enforcement officials for their investigation.
