Federal and State Law

Federal Law:

American Rescue Plan Elementary and Secondary School Emergency Relief (ARP ESSER) Fund under the American Rescue Plan (ARP) Act of 2021, Public Law 117-2.

OSPI Requirements:

Federal law requires the state education agency (SEA) to distribute ESSER funds to LEAs via the Title I funding formula. The law requires the funds to be used to address academic recovery and acceleration (the federal law uses the term “learning loss”).

District Requirements

Each public school district in Washington State is required by the Washington State Legislature and by Congress to create and submit an Academic and Student Well-being Recovery Plan.

GOAL

The goal of the plan is to identify which students and student groups need additional academic and well-being supports, define how those supports will be provided, and plan for recovery and acceleration of student learning and well-being over the summer, into the fall, and beyond.

THE PLAN ...

The image shows a collection of handwritten mathematical notes on a chalkboard. At the top left, there are some algebraic expressions: $\sqrt{2} \cos(45^\circ + \alpha)$ and $n^2 - 12n + 20 = (n-10)(n-2)$. Below these are two diagrams of a beam of length L supported at both ends (A and B) with a uniformly distributed load q . The first diagram shows the beam with reaction forces A and B and the load q . The second diagram shows the beam with a coordinate system x and the flexural rigidity EI . To the right of the diagrams are several trigonometric identities: $\sin(-\alpha) = -\sin \alpha$, $\operatorname{tg}(-\alpha) = -\operatorname{tg} \alpha$, $\sin(\frac{\pi}{2} \pm \alpha) = \pm \cos \alpha$, and $\operatorname{tg}(\frac{\pi}{2} \pm \alpha) = \mp \operatorname{ctg} \alpha$. Further right, there are more identities: $\cos \alpha = \frac{1 - \operatorname{tg}^2 \frac{\alpha}{2}}{1 + \operatorname{tg}^2 \frac{\alpha}{2}}$ and $\operatorname{tg} \alpha = \frac{2 \operatorname{tg} \frac{\alpha}{2}}{1 - \operatorname{tg}^2 \frac{\alpha}{2}}$. Below these, there are more complex identities involving $\sin \frac{\alpha}{2}$ and $\cos \frac{\alpha}{2}$. At the bottom, there are two series expansions: $1 + x^2 + x^4 + \dots = \sum_{n=0}^{\infty} x^{2n}, |x| < 1$ and $e^x = 1 + x + \frac{x^2}{2!} + \dots + \frac{x^n}{n!} + \dots = \sum_{n=0}^{\infty} \frac{x^n}{n!}, |x| < \infty$.

Student well-being is an overarching term to describe both social-emotional learning (SEL) and mental health needs. Learning cannot take place unless we attend to students' overall well-being.

OSPI

Diagnostic Assessments (academic and well-being) are a particular type of formative assessment intended to help educators identify students' specific knowledge, skills, and understanding in order to build on each student's strengths and specific needs.

OSPI

Student Supports:
Universal supports for all students and strategic supports for identified student groups and students.

OSPI'S PLAN REQUIREMENTS

- Districts must submit their plans via an online survey to OSPI by June 1, 2021.
- OSPI has provided a series of required questions to which districts must respond.
- The survey with responses to these questions is the formal plan that we submit to OSPI.
- The plan must be publicly posted on the LEA website.

TWO THINGS to TAKE NOTE OF:

- Assessment data is used to determine which students in each of the identified groups need the supports identified in the plan. Not all students in each of these groups will necessarily receive these supports.
- This plan is not inclusive of all the district's efforts to support students.

Equity

We envision a school culture built upon the principles of equity, social justice & sustainability in which each individual is seen, heard, valued, and respected for their chosen identity and unique assets, and are empowered to actively participate as collaborators & changemakers in this community and beyond.

OISD Equity Committee

EQUITY TOOL

As schools move forward with planning to serve students, decisions are informed by data and centered on equity by anticipating a range of perspectives and needs. By predicting needs, equitable systems can be planned and put in place to address student needs.

OSPI

Orcas Island School District #137

Vision: We envision a school culture built upon the principles of equity, social justice & sustainability in which each individual is seen, heard, valued, and respected for their chosen identity and unique assets, and are empowered to actively participate as collaborators & change makers in this community and beyond.

OISD Equity Lens Tool

The use of this Equity Lens tool is what guides our individual and collective decision-making that results in equitable outcomes.

Group Members Present:

Item of Discussion:

Who are the racial/ethnic and underserved groups affected?

What is the potential impact of the resource allocation and strategic investment to these groups?

Does the decision being made ignore or worsen existing disparities or produce other unintended consequences? What is the impact on eliminating the opportunity gap?

PHASES

Plans will be submitted in three phases, allowing them to engage in and plan for continuous improvement cycles, and time to design and implement powerful and equitable systems to support student needs and plan for long-term system changes.

OSPI

PHASE 1

- **June 2021:** Initial LEA plan for academic and student well-being recovery and acceleration strategies to be implemented for the summer and early fall of 2021.

PHASE 2

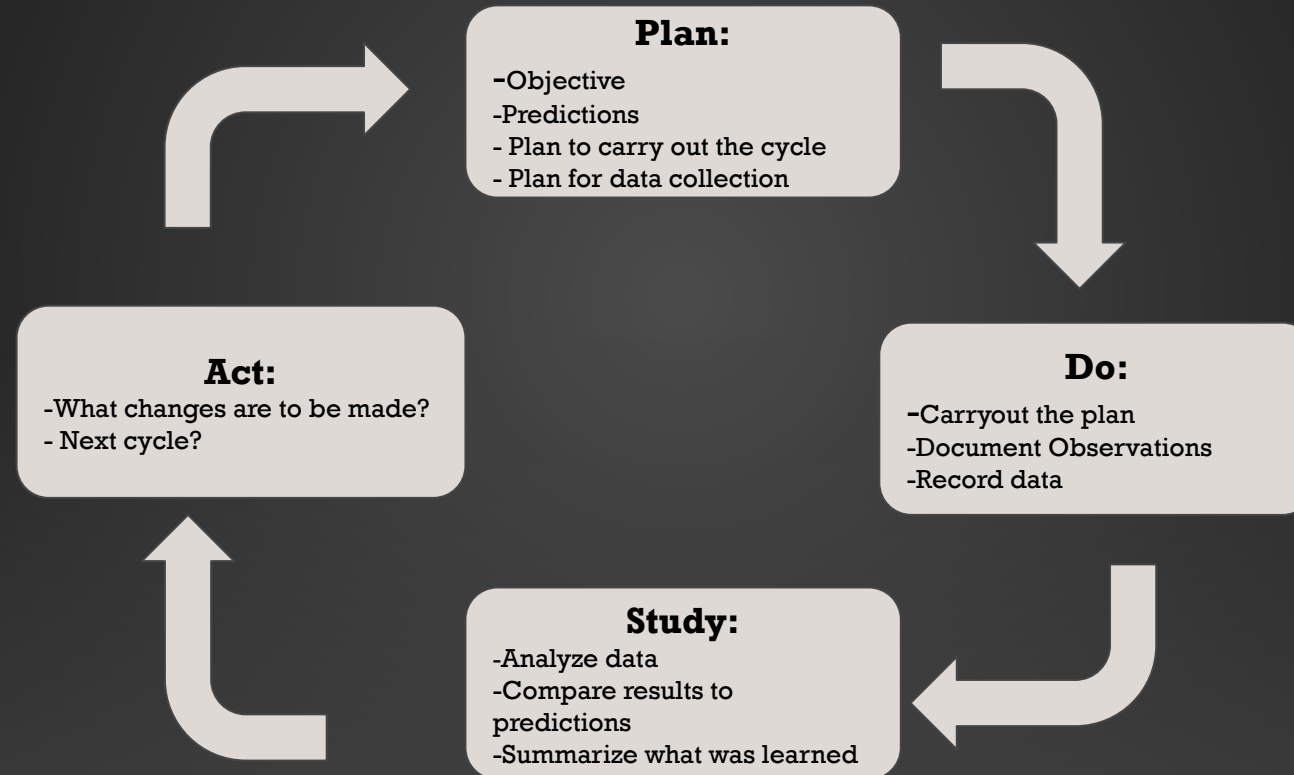

- **November 2021:** Review and analyze student data from the implemented Phase 1 strategies/interventions for each student group identified. Reflect and build on learning. Adjust and begin longer-term planning of recovery and acceleration strategies/interventions for implementation over the winter and throughout the school year 2021–22. Continue to collect data.

PHASE 3

- **April 2022:** Continuous improvement cycle for strategies/interventions implemented in Phases 1 and 2 by reviewing and analyzing the collected data to inform next steps and engage in long-term sustained strategies for the next school year and beyond

Part IV: Diagnostic Assessments

Diagnostic assessment is a particular type of formative assessment intended to help educators identify students’ specific knowledge, skills, and understanding in order to build on each student’s strengths and specific needs. Because of their domain specificity and design, diagnostic assessments can guide curriculum planning in more specific ways than most summative assessments.

Part VII: Monitoring Student Progress

13. Describe how your LEA will consistently apply the selected equity analysis and diagnostic assessments to evaluate and monitor student progress and effectiveness of

the strategies/interventions implemented to address gaps in student learning and well-being.

For example:

“Our district uses an equity analysis process every three months to monitor progress, adjust strategies and identify student learning gaps.”

OISD's LEA will consistently apply our selected equity analysis quarterly and our universal screener, FastBridge three times each academic year. Campus and district teams will analyze the data to make instructional decisions and propose modifications to interventions and supports to close the achievement gap.

Part VIII: Supports for Strategies/Interventions

14. Of the strategies/interventions your LEA has implemented or is planning to implement, identify **up to three** in which your LEA has the knowledge, skills, and capacity to mentor another LEA.

GLAD, Multi-Tiered Systems of Support, Teacher Assistant Team (TAT)
